Steel Rear Enclosures

Speakers Selector >

Metal Rear Enclosures (back boxes) are available for most models of KEF Ci Speakers. Installed during the pre-wiring of a new construction installation they provide a sealed enclosure for the loudspeaker and reduce sound transmission to the room behind the speaker.

* Due to integrated back can this unit is not compatible with the rear enclosure.

** Ci50R cut out is 70mm (2.76in.) with the rear can. The Ci50 rear can is able to be used in a retro-fit installation

+ Use of metal rear enclosure with these models requires removal of integrated plastic rear can
