

Performance Speaker Stand

OBSESSED WITH HIGH RESOLUTION

Designed and Engineered in the UK

Speaker positioning is critical when it comes to creating the ideal soundscape. KEF Performance Speaker Stands were engineered in the UK specifically to ensure bookshelf speakers sound at their best. This encompasses ideal driver height positioning, steel damping plates accompanied by aluminium tube and base plates, and space available for the addition of inert filler for further stability.

The Performance Speaker Stand is ideal for the LS50 and LS50 Wireless, but can also be utilised by other KEF Bookshelf Speakers[#]. The stand features a simple and elegant style that allows it to blend in neatly into the décor of any home. An integrated cable management system allows myriad cables to be hidden away within the stands to create a clean look, which is ideal for bookshelf speakers that are connected to a wide range of audio sources.

Features

- Integrated cable management system cleanly conceals all cables
- Steel and aluminium construction provides rigidity and stability
- Space available for the addition of inert filler for further stability
- Modern design blends seamlessly into home décor, giving home Hi-Fi an elegant look
- Ideal for KEF LS50 and LS50 Wireless, also supports other KEF Bookshelf Speakers[#]
- Available in 3 colours – Black, White and Titanium Grey
